Recycled Content Statement

Sigma Stretch Film does not produce film using post consumer nor post industrial waste as defined in paragraph 260.7 section "e" of the Federal Trade Commission's *Guide for the Use of Environmental Marketing Claims*. However, significant percentages of reclaimed polyethylene collected from within our own facilities are used in certain blends, but do not qualify as post industrial waste as defined in the aforementioned guide.

A handwritten signature in black ink, appearing to read "Jeff Garcia", is positioned above the printed name.

Jeff Garcia
Technical Manager
Sigma Stretch Film
