January 2019

**Content Statement**

Stretch film is made almost entirely of Linear Low Density Polyethylene (LLDPE) with small percentages of other types of polyethylene for property enhancement. There are also varying amounts of polyisobutylene (PIB) for cling in certain blends. These materials are all sourced domestically.

A handwritten signature in black ink, appearing to read "Jeff Garcia", is positioned above the printed name.

Jeff Garcia  
Technical Manager  
Sigma Stretch Film
