CPSIA Statement

The Consumer Product Safety Improvement Act (CPSIA) of 2008 Public Law 110-314 deals with the elimination, testing, and reporting of lead in items intended for use as a children's product. As per section 3(a)(16) of the Consumer Product Safety Act, stretch film is not listed as an item covered by the act.

Although we are not required to comply with CPSIA, the clear and colorless, UVI, black machine, and all white films supplied by Sigma Stretch Film do *not* contain lead, antimony, arsenic, barium, cadmium, chromium, mercury, or selenium. (see also CONEG Compliance Statement).

A handwritten signature in black ink, appearing to read "Jeff Garcia", is positioned above the printed name.
