

SUSTAIN360

SIGMA SUSTAIN 360 - HAND FILM

30% PCR content cast hand film combines sustainability with reliable performance.

75% stretch "lock-up" design for easy application and optimized containment.

Thinner gauge at full stretch reduces film usage without sacrificing strength.

High clarity and easy unwind improve handling efficiency.

One-sided cling prevents pallet-to-pallet adhesion, ensuring clean separation during storage and transport.

Excellent puncture resistance for dependable load protection.

Sustain 360 is engineered to have a "lock up" point at 75% stretch, enabling the user to stretch film thinner, using less product, with unrivaled containment.

For example: 42g Sustain 360 at 75% stretch, will have an on-pallet thickness of 31g. Using Sustain 360, a 30% PCR stretch film, only approximately 22 of those gauge points come from virgin resin demonstrating a reduction of 75% in virgin resin use when compared to a traditional 80g film!

Product	Length	Width	Gauge	Case Weight (LBS)	Cases/Pallet
HSP40090	1312'	400mm	57	18.8	64
HSP181452	1476'	18 inch	52	22.1	64
HSP181447	1476'	18 inch	47	20.0	64
HSP40070	1476'	400mm	47	17.5	64
HSP141442	1476'	14 inch	42	13.9	80
HSP40060	1558'	400mm	42	16.5	64
HSP40060B	1558'	400mm	42	4.1	264

All Sigma Stretch Film products are fully recyclable through proper channels. We are proud to be a Certified Minority Owned Company within the Sigma Plastics Group.
