MEV Content Statement	January 1 st , 2026– Dec 31 st , 2026
Dates Covered:	
Authorized Company Representative:	Brad Blankenship, Technical Manager, Sigma Stretch Film

Stretch film is made almost entirely of Linear Low-Density Polyethylene (LLDPE) with small percentages of other types of polyethylene resins for property enhancement. The MEV blend also includes Polypropylene (PP) for enhanced film properties. These materials are all sourced domestically.

A handwritten signature in blue ink, appearing to read "Brad Blankenship", is positioned above the printed name.
