

The future of stretch film is now within reach

Announcing Evolve. The most advanced film we've ever engineered.

Almost futuristic, Evolve is a brand new formulation, made with proprietary resin blends on state-of-the-art extrusion equipment. This all-purpose film is a highly engineered, one side cling, cast SUPER film. It's the first of its kind in North America.

Evolve has ridiculously perfect roll and edge profiles and gauge consistency that is simply out of this world.

Don't just step into the future. Come with Sigma, and EVOLVE.

Multiple gauges available for all applications

Product Code	Width (mm)	Gauge	Length (Feet)	Weight/Roll (lbs)	Rolls/Pallet
MEV50010041	500	41	10,000	32.3	40
MEV5009045	500	45	9,000	31.9	40
MEV5008050	500	50	8,000	31.5	40
MEV5007541S50	500	41	7,500	24.2	50
MEV5006545S50	500	45	6,500	23.1	50
MEV5006050S50	500	50	6,000	23.6	50

Just because we can make it thin, doesn't make it RITE for every application.

Consult your local Sigma Sales Pro for a Rite-Gauging assessment.
